

SKU: 1215

6 MM POLYCARBONATE SHEET

6mm thick twin-wall polycarbonate, manufactured with 100% virgin raw material. The Glanze polycarbonate sheet combines the properties of thermal insulation, high light transmission, and excellent impact resistance. It can be custom-cut and cold-curved. It is the perfect candidate for protecting your spaces from solar radiation and preventing material yellowing due to its co-extruded UV layer that acts against sunlight.

- Finishes: Blue, Bronze, Transparent, Green, White, Smoke, Yellow, Orange, Red, and Reflective Gray.
- Sales unit: 1 piece.
